

# Steam Generator

## Features

1. Thermostat for water temperature regulation
2. Warning lights for voltage and fuel reserve
3. Fan with independent motor
4. Anti-seizure diesel pump
5. Double Lance Operation
6. Parking brake

## Technical Specification

Steam Pressure	9.50 - 10.50 Bar
Steam Boiler Temperature	180° C
Steam Outgoing Temperature	150° C
Steam Production	42 kg/h
Boiler Capacity	14 lt
Boiler Type	Diesel
Diesel Consumption	3.3 lt/h
Diesel Fuel Tank Capacity	45 lt
Electric Supply	220 V 50 hz
Electric Consumption	150 Watt
Detergent tank capacity	10 lt
Cemical Tank Capacity	1 lt

1	Pressure Guage
2	Adjustable Steam Flow
3	Detergent Output
4	Steam Output
5	Adjustable Detergent Flow
6	Adjustable Steam Flow
